

Dear – athletes, officials, partners and guests,

It is with great pleasure that I welcome you on behalf of Cyprus Sport Organization, to the 2013 European Universities Volleyball Championship hosted by the Cyprus University Sport Federation and the University of Cyprus.

It is an honor for Cyprus to host such an important international championship, and I am certain that all the preparatory work done by the hosts will make sure that the sport event will be completed with great success.

Cyprus Sport Organization has been supporting University Sport through the years, appreciating the substantial role that sport participation plays among young people. Apart from the social role of sport, observed through Social Cohesion, Olympic Spirit and Fair Play, both the Council of Europe and the European Commission have recognized the importance of university sport in the promotion of “Dual Career” among talented and elite athletes.

Concluding, I would like to wish all the participants the best of luck during the games, and unforgettable memories from their stay in Cyprus.

All the best,
